

Quality Policy Statement

Doc. Ref: NDE-QHSE-POL-001 Rev02

Effective Date:20/06/2022

Our Quality Policy reflects our top management's commitment to quality performance. This policy forms the framework upon which our organisation sets its objectives and targets and is the driver for implementing and improving our integrated QHSE management system so that we can maintain and improve our quality performance whilst complying with all relevant legal and regulatory requirements.

The policy is communicated to and understood by all staff and is reviewed annually at our management review meeting and revised if needed, to reflect changing business conditions, new technology, government policies and other relevant information.

By taking ISO 9001 and ISO 17025 quality management standards and integrating them into our QHSE Management system, NDE Solutions intends to achieve continuous improvement of all our business activities and to maintain our position as the industry leader in non-destructive and mechanical inspection applications.

Through the application of our integrated QHSE Management System, NDE Solutions will provide non-destructive and mechanical inspection services that are effective, reliable, leading-edge and problem-free, with quality as the highest priority in all that we do.

NDE Solutions will seek to achieve this by meeting the following:

- Identify, document, monitor, measure and continuously improve the quality of our business's processes,
- Ensure the delivery of the highest possible quality services and achieve the greatest possible customer satisfaction with every single customer we work with,
- Apply a risk management philosophy and practice that aims to identify and eliminate risk and problems wherever possible, and where this cannot be achieved, implement appropriate control measures to manage the risks at a level that is as low as reasonably practicable,
- Establish achievable objectives and targets, monitor performance against these targets, and strive to continually improve the Company's performance in accordance with ISO 9001 and ISO 17025 Standards,
- Clearly define the roles, responsibilities and accountabilities of all our team and provide them with industry and professional training as well as opportunities to advance their careers,
- Consult with, involve and encourage feedback from our customers, our team, the community and other stakeholders to assist us in continually improving our products and services,
- Provide sufficient and suitable resources to implement, maintain and continuously improve all aspects and impacts of our quality performance and
- Effectively communicate this policy to all relevant stakeholders and review it at least annually for continuing suitability.

NDE Solutions aims to meet these commitments by ensuring policies and procedures are adopted that comply with or exceed the requirements of ISO 9001, ISO 17025 and other statutory provisions governing Quality Management.

This policy is applicable to NDE Solutions in all its operations and functions including those situations where workers are required to work on specific sites. The Policy Statement will be reviewed on an annual basis and is available to all interested parties via the NDE Solutions website.
